## ‘ADVERTISEMENT IN EVERY SIZE’

### TENSIONED FABRIC SYSTEM

Take your advertising to the next level with the Fabric Frames. The minimalist display solution consists of a flat sided aluminium frame and tensioned fabric graphic with silicone edges. Important to know: the solution should only be used indoors. The Fabric Frames are available in various models that will fulfill your wishes: illuminated, non-illuminated, single-sided and double-sided, freestanding, wall mounted or ceiling suspended. Every solution in your suitable size. From a small solution to a larger LED illuminated custom size solution for wall and freestanding applications. The depth of the profile is the main difference.

### CONNECT TO IMPRESS

Fabric Frames can be used both individually and segmented, allowing you to connect them in series to achieve stunning visual displays such as walls and backdrops. In that case additional supporting profiles are used inside the frame, behind the fabric. Segmented constructions allow for larger frame sizes with the inclusion of additional connectors, screws and bases.

### EASY TO USE

Another important advantage is that the Fabric Frames are an easy to use product. The solution can easily be installed on site.

### CHANGE YOUR FABRIC GRAPHICS

The graphics can be exchanged without tools or the need to remove the solution from the wall. Fabric graphics are not included with the product but can be requested separately. Prices for all variations are available on request.

## ‘DIGITAL IS THE FUTURE’

A picture is worth more than a thousand words. Let's go for more! With the Digital Display products you attract attention, tell stories and create an unforgettable impression at the right place and time. Easy, practical and extensible: those are the three keywords for the Digital Display assortment. Your wishes will be fulfilled as the Digital Displays are customisable to your requested size and preferences. Spread your message elegantly and durable.

## ADAPT TO THE MOMENT

Change your message easily at any time of the day. Whether it's in the morning or during weekends, when it's raining or the sun is shining. You name it. Your message will always suit the situation. Speed won't be a problem: play your images and videos easily from USB drive, simple step-by-step manual included, with default Wi-Fi connectivity.

## STAY IN TOUCH

Give the best and get the best: create interaction with your public. Show your e-shop, receive feedback on the spot or promote other items. It's all up to you. The displays have a safety tempered glass or plastic cover and have a heavy duty aluminium or steel construction.

## EVERYWHERE AT ANY TIME

The Digital Displays are equipped with the latest professional QMR Samsung screens. There is no need to worry about missing your moment to shine, because the displays are operational 24/7, all year long. Even with the outdoor displays, you don't have to miss anything.

## UPGRADE YOURSELF

Further enhancements are up to you! A central content management system will help you spread the right message. Place a touch foil for extra interaction by creating a touch function on your Digital Display. More personalisation options are possible.
